

# 約分の練習

No. 2

① □にあてはまる数を書きましょう。

$$\textcircled{1} \quad \square \times \square = 12$$

$$\square \times \square = 12$$

$$\textcircled{2} \quad \square \times \square = 16$$

$$\square \times \square = 16$$

$$\textcircled{3} \quad \square \times \square = 24$$

$$\square \times \square = 24$$

$$\textcircled{2} \times \square = 24$$

$$\textcircled{4} \quad \square \times \square = 32$$

$$\textcircled{5} \quad \square \times \square = 36$$

$$\textcircled{3} \times \square = 36$$

$$\textcircled{6} \quad \textcircled{3} \times \square = 39$$

$$\textcircled{7} \quad \square \times \square = 40$$

$$\square \times \square = 40$$

$$\textcircled{8} \quad \square \times \square = 48$$

$$\textcircled{9} \quad \square \times \square = 56$$

$$\textcircled{10} \quad \square \times \square = 63$$

$$\textcircled{11} \quad \square \times \square = 72$$

$$\textcircled{12} \quad \square \times \square = 100$$

$$\textcircled{2} \times \square = 100$$

$$\textcircled{13} \quad \textcircled{10} \times \square = 120$$
